

Drum

In West Africa, a drummer will go sit on a nearby mountain and beat the drum. The people will then go to their fields and hoe to the beat.

Obtain materials to make the drum: boxes or cartons with lids, butcher paper, tape, rubber bands, tempera paint, scissors, beads, raffia, yarn, colored pens, glitter, feathers, and sequins.

Directions:

Cut butcher paper to cover the sides of each container.

Paint paper.

Tape the lid to the container. Cover the top with construction paper cut into a circle. Allow 5 cm to hang from the edge of the top. Wrap it with a rubber band.

Decorate drum.
